2. Reason

The Company recognizes the return of profits to our shareholders as one of our most important management priorities. Taking into consideration the performance of each fiscal year, the strengthening of our corporate structure, and future business expansion plans, we have established a basic policy of aiming for a consolidated dividend payout ratio of 65% or higher. To promptly return the results of our management to our shareholders, we have decided to implement quarterly dividends starting from the fiscal year ending December 2025.

In addition, for the dividends for the fiscal years 2025 and 2026, we plan to implement an additional dividend equivalent to 35% of the dividend payout ratio, in addition to the basic policy of a 65% dividend payout ratio, as a commemorative dividend to mark our listing on the Prime Market.

Taking these factors into consideration, the dividend for this quarter will be set at 4.85 yen per share (dividend payout ratio of 100%). For dividends in subsequent quarters, we plan to implement them in accordance with the above policy.

*The dividend forecasts are as follows:

	Dividend per share (Yen)
