Notice Concerning Compliance with Listing Maintenance Standards
(Completion of Compliance with All Continued Listing Criteria for the Prime Market)

GMO Internet, Inc. (the “Company”) previously disclosed its plan to meet the listing maintenance standards in the "Notice Concerning Plan to Comply with Listing Maintenance Standards (Entering Improvement Period)" dated March 9, 2026. The Company hereby announces that it has received a "Compliance Determination Notice" regarding the listing maintenance standards (distribution standards) from Tokyo Stock Exchange, Inc., and as of April 28, 2026, it has met all the listing maintenance standards for the Prime Market of Tokyo Stock Exchange, as detailed below.

1. Status of Compliance with the Listing Maintenance Standards

The Company's status of compliance with the listing maintenance standards for the Prime Market of Tokyo Stock Exchange is as shown in the table below. As of the end of December 2025, the Company did not meet the standard for the tradable share ratio. However, as a result of initiatives based on the plan for compliance with the listing maintenance standards, the Company met the standard as of April 28, 2026. Consequently, the Company now complies with all items of the listing maintenance standards for the Prime Market of Tokyo Stock Exchange.

Item		Number of Shareholders	Number of Tradable Shares	Market Capitalization of Tradable Shares	Ratio of Tradable Shares
Listing Maintenance Standards (Prime)		800 or more	20,000 units or more	10.0 billion yen or more	35.0% or more
Status of the Company*1	As of Dec. 31, 2025	25,335	212,614 units	18.6 billion yen	7.7%
	As of Apr. 28, 2026	Compliant	Compliant	Compliant	41.5%
Compliance Status*2		–	–	–	Compliant

*1 The Company's compliance status is calculated based on the distribution status of the Company's share certificates, etc., recognized by the Tokyo Stock Exchange as of the record date.

*2 Only the ratio of shares in circulation that did not meet the requirements as of the end of December 2025 was reviewed by the Tokyo Stock Exchange, and the results of that review are presented here.

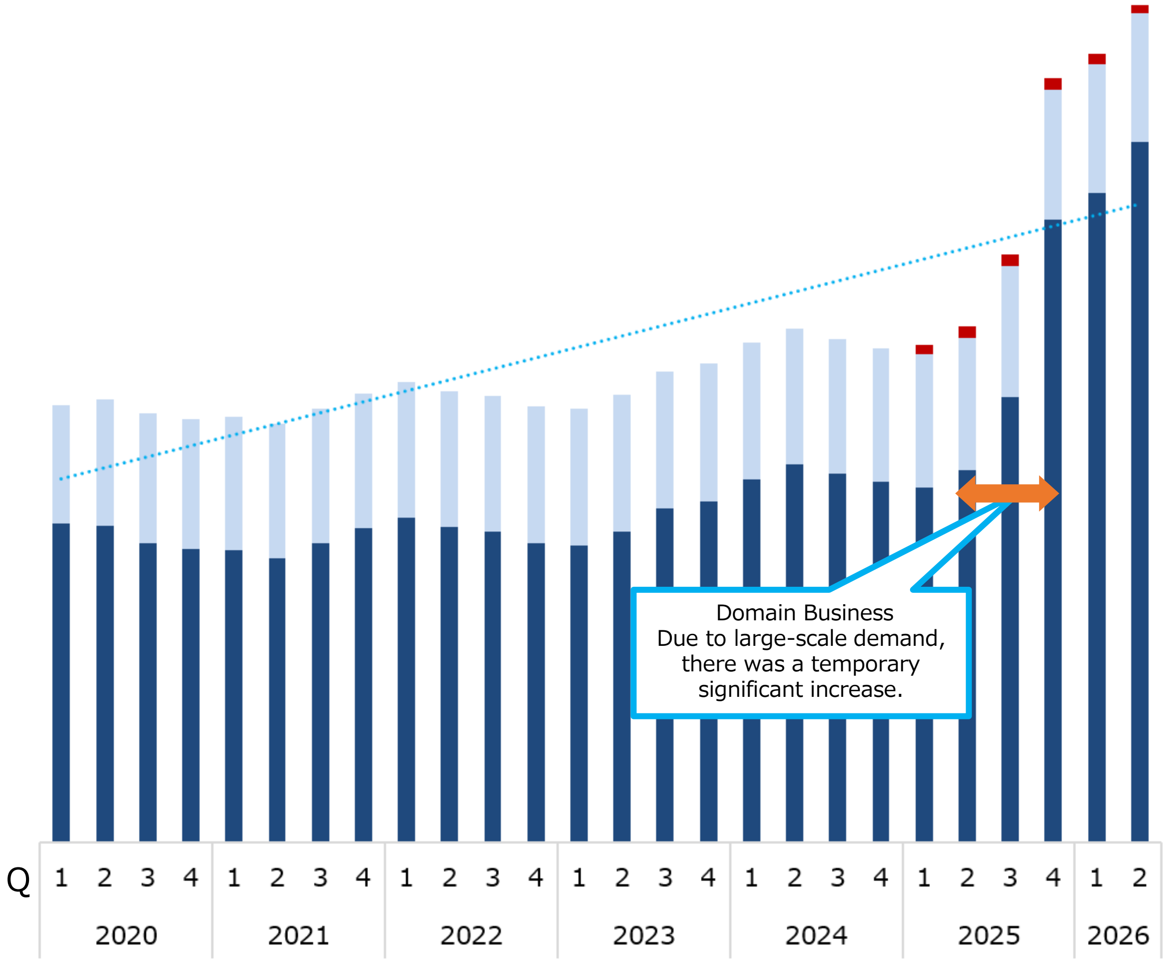
2. Implementation Status of Initiatives to Comply with Listing Maintenance Standards

As announced in the "Notice Regarding Issuance of New Shares and Secondary Offering of Shares" dated April 10, 2026, the Company resolved at the board of directors meeting held on the same day and implemented the issuance of new shares and a secondary offering of shares. The purposes of this offering were: (1) raising growth capital for the new GPU cloud business, (2) compliance with the listing maintenance standards for the TSE Prime Market, and (3) improving liquidity and expanding its shareholder base, particularly among individual investors. As a result, the "tradable share ratio," which had previously been non-compliant, became compliant, and the Company has now met all items of the listing maintenance standards.

The Company will continue to strive for sustainable growth and the enhancement of corporate value to maintain compliance with the listing maintenance standards for the Prime Market of Tokyo Stock Exchange.

Reference data | Number of Contracts KPI Progress

GMO INTERNET



Regarding the Increase in Contract Volume Due to Large-Volume Domain Contracts

- **The number of domain contracts surged in Q3–Q4 of 2025**

- **The primary reason is large-scale contracts with corporations and businesses**

  ***For purposes such as domain trading, SEO, and AIO testing, etc.**

- **As these are one-year contracts, we anticipate a certain degree of decline in the second half of this year**

- **Since this is a bulk purchase with a low unit price, the impact on financial performance will be limited.**
